

### Soybean Products

#### **BIGSWEETYIELD \***

A cold-processed sweetener, BigSweetYield has been designed to deliver a health-boosting shot of energy that will invigorate your plants. BigSweetYield has proven to increase yields, increase a plant's BRIX level, reduce insect pressure and increase the efficacy of herbicides.

**Rate:** 1 lb. / acre

#### **BIGSWEETYIELD LB**

BigSweetYield LB (Liquid Blend) is a concentrated liquid form of our BigSweetYield product.

BigSweetYield LB has been designed to deliver a health-boosting shot of energy that will invigorate your plants and has proven to increase yields & BRIX levels, reduce insect pressure and increase the efficacy of herbicides.

**Rate:** 16 oz. / acre

#### **BPIF-SOY**

BPIF-Soy is an in-furrow application specifically designed for soybeans. This product combines the BigBioYield poly-microbial blend and cold-processed sweetener to give your soybeans a fast start and keep them healthy.

**Rate:** 16 oz. liq. + 1 lb. dry / acre

#### **BIGSWEETYIELD DB**

BigSweetYield DB is a cold-processed sweetener mixed with the BigBioYield poly-microbial blend and Yield Booster with seven micronutrients. It has proven to significantly increase soybean yields, and it delivers all the benefits provided by the BigSweetYield cold-processed sweetener.

**Rate:** 3 quarts / acre

#### **BIGBIOYIELD \***

BigBioYield is made up of multiple beneficial bacteria derived from naturally occurring microorganisms that are proven to increase plant health and crop yields. This product also promotes enhanced disease control because it produces metabolites, increases the availability of nutrients bound to the soil and improves the size of a plant's root mass.

**Rate:** 16 oz. / acre

#### **YIELD BOOSTER**

Yield Booster blends seven vital micronutrients designed to supply your crops with the nutrients that they need to attain high yields. This micronutrient blend also significantly contributes to plant and root health.

**Rate:** 1 qt. / acre

### Corn Products

#### **BIGSWEETYIELD \***

A cold-processed sweetener, BigSweetYield has been designed to deliver a health-boosting shot of energy that will invigorate your plants. BigSweetYield has proven to increase yields, increase a plant's BRIX level, reduce insect pressure and increase the efficacy of herbicides.

**Rate:** 1 lb. / acre

#### **BP IN-FURROW**

Producers may use BP In-Furrow as an application that combines the BigBioYield poly-microbial blend with a high-quality food grade starter fertilizer. It's proven to significantly increase yields in corn, wheat, milo and other crops.

**Rate:** 4 gal. / acre
