

Seed Treatments

BIGYIELDCOAT CORN +ZN

BigYieldCoat Corn +Zn is a micronutrient supplement that gives seedlings what they need, once germinated, to get a head start on the growing season. It's survival of the fittest, so give your plants the supplements they need to emerge, grow and thrive. BigYieldCoat Corn +Zn supplies added zinc, which is critically important to ensuring proper growth and development in young corn seedlings.

Rate: 8 oz. / 100 lbs. of seed
Crops: corn

BIGYIELDCOAT SOY

BigYieldCoat Soy is a micronutrient supplement that gives seedlings what they need, once germinated, to get a head start on the growing season. It's survival of the fittest, so give your plants the supplements they need to emerge, grow and thrive.

Rate: 4 oz. / 100 lbs. of seed
Crops: soybeans

***Note:** BigYieldCoat Corn +Zn and BigYieldCoat Soy are both dry planter box treatments. They are designed to be applied to the seed in the planter box or in bulk using a BigYield applicator.*

In-Furrow Treatments

BPIF-SOY

BPIF-Soy is an in-furrow application specifically designed for soybeans. This product combines the multiple beneficial bacteria in BigBioYield and our cold-processed sweetener to give your soybeans a fast start and keep them healthy.

Rate: 16 oz. liq. + 1 lb. dry / acre
Crops: soybeans

BP IN-FURROW

Producers may use BP In-Furrow as an application that combines the BigBioYield multiple beneficial bacteria blend with a high-quality, food grade starter fertilizer. It's proven to significantly increase yields in corn, wheat, milo and other crops.

Rate: 4 gal. / acre
Crops: corn, wheat, milo

If you have any questions or are interested in ordering products, please call us at (844) 242-4367, or go online at www.bigyield.us.

Foliar Treatments

BIGBIOYIELD

BigBioYield supplies multiple beneficial bacteria derived from naturally occurring microorganisms that are proven to increase plant health and crop yields. This product also promotes enhanced disease control because it produces metabolites, increases the availability of nutrients bound to the soil and improves the size of a plant's root mass.

Rate: 16 oz. / acre
Crops: all crops

BIGSWEETYIELD

A cold-processed sweetener, BigSweetYield has been designed to deliver a health-boosting shot of energy that will invigorate your plants. BigSweetYield has been proven to increase yields, increase a plant's BRIX level, reduce insect pressure and increase the efficacy of herbicides.

Rate: 1 lb. / acre
Crops: all crops

BIGSWEETYIELD DB

BigSweetYield DB is a cold-processed sweetener mixed with the multiple beneficial bacteria in BigBioYield and Yield Booster with seven micronutrients. It has proven to significantly increase soybean yields, and it delivers all of the benefits provided by the BigSweetYield cold-processed sweetener.

Rate: 3 qts. / acre
Crops: soybeans

YIELD BOOSTER

Yield Booster blends seven vital micronutrients designed to supply your crops with the nutrients that they need to attain high yields. This Yield Booster micronutrient blend also significantly contributes to plant and root health.

Rate: 1 qt. / acre
Crops: corn, soybeans, wheat

Other Products

BP FA

BP FA is made up of multiple beneficial bacteria that can be impregnated directly onto dry fertilizer. It has proven to increase yields, solubilize tied up phosphorus and help create a more even spread.

Rate: 1 pint / acre
Crops: dry fertilizer amendment
